OBJECTIVE

Looking for a position in **software engineering** to utilize my previous experience and skills with room for growth.

NOTABLE CS PROJECTS / EXPERIENCE WITH TOOLS

ASP.NET

Worked on **multiple projects** using ASP.NET for various class assignments

- Know how to parse JSON and used it to access Github's API
- Used Entity Framework for the majority of projects
- Used Ajax to make fully functioning and responsive features
- Used Linq to access databases
- Know how to use JQuery to make using Javascript and Ajax easier
- Know how to connect database to project

Version-control

Used Git to **manage** multiple projects

- Accessed git manually using Git Bash

Web Applications

Have experience using Microsoft Azure to **deploy** web applications

- Know how to navigate Azure to deploy, edit, and take down web applications

Databases

Used MSSQL to set up and **maintain** large databases

- Have deployed these to the cloud using Azure
- Experience in designing working databases from the ground up

PERSONAL STRENGTHS

- Excellent customer service skills; Able to work with a diverse population
- A fast learner and eager to learn new skills for work
- Reliable and committed to schedule

STRONG LANGUAGES

- C++ (3 Years)
- Javascript (1 Year)
- C# (1 Year)
- SQL (1 Year)
