Coordinate Pet Care:

2) **Core Feature Two** ⇒ **[CF]** As the **owner of Petopia**, I want an easy-to-use, preferably fun way for Pet Owners and Pet Care Providers to be able to connect with each other, to get their Pets cared for, and to take care of Pets.

a) **Epic One** ⇒ **[E]** As a **Pet Owner**, I want to be able to search for Pet Care Providers, filtered by geographic proximity, the expertise of the Pet Care Provider and depth/length of experience, and their current rating.   (this is where our algorithm comes into play)

Facilitate Communication:

3) **Core Feature Three** ⇒ **[CF]** As the **Owner of Petopia**, I want a way for Pet Owners and Pet Care Providers to communicate with each other from within the site (in-app), to facilitate better care for Pets.

a) **Epic One** ⇒ **[E]** As a **Pet Owner**, I want to be able to communicate with my Pet's Care Provider, from within Petopia, so that there is an ongoing record of my Pet's care, for the same Pet Care Provider to return, or for another one to provide care/services in the future.

b) **Epic Two** ⇒ **[E]** As a **Pet Owner**, I want to be able to hear from my Pet Care Provider when my Pet's services have been performed -- i.e., when they got their meds, fed, let in/out, walked, taken to or returned from their appointment, so that I do not worry as much about someone taking care of my Pet and I feel assured my Pet has their needs met.

c) **Epic Three** ⇒ **[E]** As a **Pet Owner**, I want to be able to hear about the condition and status of my Pet during and/or after their care/services have been provided, so that I can feel assured that they are happy and being well-cared for.

d) Epic Four ⇒ **[E]** As a **Pet Care Provider,** I want to be able to report to the Pet Owner about the condition and status of their Pet(s), and what care/services have been provided; so that I can provide excellent customer service and increase my chances of return engagements to keep earning money and improve my ratings to get additional jobs.
